Commercial Lite

UV341C (EU/CIS)

UHD Commercial TV with Essential Smart Function

LG Commercial Lite TVs are designed specifically for diverse business environments. Especially via compatibility with AV Control system* and DPM (Display Power Management) as well as its smart connectivity, simple user friendly interface, and ULTRA HD picture quality, the UV341C series enhances the ease of use while facilitating communications between businesses and their target audiences. Also, managers can improve management efficiency by using management features such as WOL (Wake On LAN), SNMP (Simple Network Management Protocol).

UV341C

- ULTRA HD
- Commercial Smart UX
- NEW WOL and SNMP
- SmartShare, ScreenShare
- Bluetooth Sound Sync
- NEW Compatibility with AV Control System*
- NEW DPM (Display Power Management)

screen size

65", 75"

* Available AV control systems may differ by regions.

ULTRA HD TV

4K Upscaler

Enjoy Full HD content in ULTRA HD quality. The 4K Upscaler automatically upgrades Full HD content to ULTRA HD through the six steps of the upscaling processes.

Signage Dedicated Features

Compatibility with AV Control system*

The LG UV341C series is compatible with AV control system, with which users can easily manage, monitor and control LG commercial displays from one location.
* Available AV control systems may differ by regions.

DPM (Display Power Management)

From now on, you can configure the DPM (Display Power Management) function by setting the function to on. When there is no signal, the TVs enters to DPM mode to manage power efficiently.
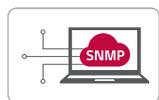

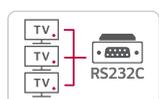

Features

WOL (Wake on LAN)

Wake on LAN

WOL (Wake on LAN) helps you remotely turn on TVs over the internet. Connect TVs and a PC in the same network, and send Magic Packet program to the MAC addresses of registered TVs. Then, it will wake up the TVs via LAN port.

SNMP

SNMP (Simple Network Management Protocol) ensures convenient network management for SI and business managers.

RS-232C Control

Via the TV's RS-232C port, you can remotely control power and volume settings simultaneously.

SmartShare & ScreenShare

Guests may use LG SmartShare features, such as Wi-Fi Direct®, as well as ScreenShare features, including Miracast®, WiDi, and DIAL to view content from their mobile devices on the large HD screen.

Bluetooth Sound Sync

This feature allows guests to listen to audio from a Bluetooth-enabled mobile device through the TV's speakers.
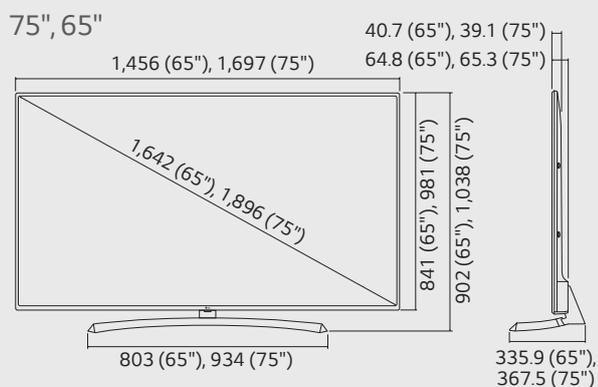

Hotel Mode

HOTEL MODE

From channel selection to volume setting, you can control the TV settings in all the rooms with Hotel Mode. Prevent misuse by customers, set volume limits, or reset settings to default for any TV. You are in control of it all.
